Introduction

Zhuhai Pilot Technology Co., Ltd. (Stock Code: **9290375**), founded i n 2000, is a global leader in digital energy solutions, with over 270 patents, ISO and CE certifications, and 85,000 square meters of manufacturing facilities. The company has R&D centers in Zhuhai, Shenzhen, and Wuhan, with 25 branch offices across China and a g lobal distribution network that spans over 80 countries， including G ermany, Romania, Saudi Arabia, UAE, Pakistan, India, Indonesia, N ew Zealand, Australia, Canada, Mexico, Colombia, Brazil, etc.

Pilot specializes in advanced energy meters for power monitoring and management, using IoT technology to provide innovative hardware, software platforms, and intelligent algorithms for industries such as public buildings, data centers, healthcare, and transportation.Pilot serves customers globally, offering smart energy and dual-carbon solutions, including energy meters and Battery Energy Storage System (BESS) cabinets.In 2006, Pilot established its subsidiary, Sino Energy, which develops electric vehicle (EV) charging infrastructure for all types of vehicles, driving sustainable mobility solutions.

Key Milestones

2000
Focusing on intelligent power meters, Pilot company was founded and standed on the top echelon soon in the global market.

2004
PILOT's brand influence grew as more products were applied worldwide, especially in Europe and Southeast Asia.

2006
Born as a subsidiary of PILOT, SINO ENERGY explored charging infrastructure solutions for smarter e-mobility.

2011
Released the 1st generation 7KW AC EV chargers, which were widely used in the market.

2014
Pilot company was listed. Stock code: 831175.

2016
Launched the 2nd generation 2*7kW AC EV charger and 42kW fast AC EV charger, becoming a mainstream EV charger supplier.

Mission

Our mission is to deliver exceptional value and quality EV charger and services to customers around the world.

Vision

Our goal is to provide reliable EV charging solutions worldwide.

2018

Released SINO ENERGY Fast EV charging stations covering ranges of 15kW to 180kW.

2019

Launched European Standard AC EV chargers which passed CE certification.

2020

50,000+ SINO ENERGY EV charging stations have been successfully utilized in China.

2022

Overseas market grew rapidly, with products achieving CE, TUV, and OCPP certifications. Deployed industry-leading liquid-cooled ultra-fast charging technology. Ranked in the top ten domestically, and emerged as a key representative of China's EV charging solutions internationally.

2023

New Automatic Factory established
PILOT Successful IPO
Stock code:831175

2024

Our business spans over 90 countries worldwide. The R&D teams continue to develop innovative products, stay tuned for exciting new releases!
